# D8175 Rapid Performance Clearcoat

## FASTER HARDER BETTER

D8175 is clearly not just another fast clearcoat

PPG technology has been present at every major milestone in refinish development and is recognised for staying ahead of the stringent OEM requirements.

Today is no exception. PPG is proud to introduce D8175 RAPID PERFORMANCE CLEARCOAT, offering bodyshops a drying time of just 5 minutes at 60°C panel temperature in all modes and size of repairs to increase throughput, and ultimately profit.

### The winning combination

Using the latest game-changing clearcoat technology, PPG has developed a unique product: a high speed drying clear with a winning combination of flexibility, hardness, excellent polishing properties, easy application and unparalleled mirror-like final appearance.

### The ultimate speed with no compromise

Due to its advanced chemistry PPG Rapid Performance Clearcoat dries in just 5 minutes at 60°C panel temperature\*; regardless of humidity. And where other clearcoats lose in quality at such a speed, you can rely on D8175 to deliver a flawless mirror-like appearance to give confidence in achieving total customer satisfaction with the repair

PPG RAPID PERFORMANCE CLEARCOAT HELPS BODYSHOPS **INCREASE THROUGHPUT AND REDUCE ENERGY USAGE**; WHILST ACHIEVING AN **EXCEPTIONAL FINAL APPEARANCE** TO ACHIEVE **TOTAL CUSTOMER SATISFACTION AND MAXIMISE PROFITS**.

Features	Benefits
Dries in just 5 minutes at 60°C panel temperature. Dries in 20mins at 40°C and 90 minutes when air dried.	Reduced bake cycle allows bodyshops to <b>complete work faster</b> to further <b>maximise spraybooth utilisation</b> - ultimately <b>increasing job throughput</b> .
Easy application and fantastic flow from the gun.	Requires <b>minimal effort</b> to achieve a nice flat finish which makes it easier to achieve a <b>high quality</b> repair <b>with first time</b> results
One clearcoat for all size repair from spot and panel repairs to full resprays; with a 60 minute pot life.	Complete <b>flexibility</b> allows bodyshops to use just one clearcoat for all job types to <b>reduce stockholding</b> ; and <b>reduce wastage</b> due to long pot life

\* Drying times stated are typical values only and may vary depending on job size, spray booth set up and ambient conditions.

**FASTER**

With its market leading speed, PPG Rapid Performance Clearcoat enables bodyshops to complete work faster to further maximise spraybooth utilisation; ultimately increasing job throughput. Such fast drying time can also result in significant energy savings compared to conventional clearcoats.

PPG Rapid Performance Clearcoat also offers flexible drying options to suit job scheduling and relieve bottlenecks. When temperature is turned down to 40°C, Rapid Performance Clearcoat will still dry within 20 minutes. There is also the option to exclude the bake process completely, as D8175 can also air dry.

**HARDER**

Thanks to outstanding hardening properties and excellent polish-ability, D8175 allows for fast handling straight out of the booth once cooled allowing a quicker re-fit which gives a faster Key to Key time. This helps saving even more precious time whilst achieving maximum satisfaction during the repair.

**BETTER**

Due to D8175's outstanding through-cure the PPG new clearcoat offers complete flexibility: all types of job can be completed regardless of size. D8175 can be used for any repair type from spot and panel repair to full respray; with no compromise on appearance even for the largest areas. This complete flexibility allows bodyshops to use just one clearcoat for all job types to reduce stockholding.

PPG Rapid Performance clearcoat is also user friendly offering easy application and fantastic flow from the gun. D8175 requires minimal effort to achieve a nice flat finish which makes it easier to achieve a high quality repair right first time.
