Bodyline aerosols are the ultimate method for the refinishing of small vehicle repairs.

They provide economical use of production time and manpower.

Adhesive cleaner to remove grease, tar, oil, wax, ink, resin stickers and residues of glue from parts of treated and untreated metal and various types of plastic. Adhesive cleaner leaves no residue. Adhesive cleaner has, in view of slow evaporation, lasting dissolving properties and is non-corrosive.

The aerosol should have room temperature. Processing temperature 5 – 30°C. Shake before use. Equally spray the parts to be treated and allow several minutes to take effect. Remove contaminations with a clean, non-fluffy cloth or tissue. Before use, test the compatibility of the surface.
