

Traffic Film Remover Power Concentrate

Description

A heavy duty manufacturing base traffic film remover developed for pressure cleaning via jet wash equipment. It can be pre-diluted with 9 parts water to make up a quality traffic film remover. The product can be diluted through the machine at normal working concentrations to perform a quality clean.

Directions

Normally dosed at 1 – 3 % after pre-dilution (or 0.1 – 0.5 % if neat).

Caution should be taken to avoid any overdosage of the concentrate. As with all detergents do not allow to dry on vehicle as staining may result.

Dilute 7:1 and then fill 1 litre to be diluted again 24:1 in sprayer.
